## **VACCINE CLINIC TO TAKE PLACE DURING FIRE DEPARTMENT OPEN HOUSE**

In coordination with the Cook County Department of Public Health, the Niles Fire Department is proud to announce that there will be a COVID-19 vaccine clinic at the Fire Department Open House on September 25th, 2021. The clinic will be in the form of a vaccination bus from Cook County.

The Village is excited to bring another great vaccination opportunity to a convenient location where members of the community will already be gathering. We hope that this easy and visible opportunity will inspire more Niles residents to partake in the COVID-19 vaccination effort.

The vaccine clinic and Fire Department Open House will be from 9:00 A.M.–12:00 P.M. on Saturday, September 25, 2021 at Niles Station 2 8360 W. Dempster Street. No appointment is needed. The exact brand of COVID-19 vaccine has yet to be announced at this time.
