## SWIMMING POOL PERMIT APPLICATION

- Pool & equipment shall be located a minimum of 6' from all lot lines and 3' from any structures and out of any easements.
- Water supply to the pool shall be protected with a back flow preventer installed on the hose bib.
- A minimum 4' barrier around pool is required. (If pool wall is 4' above grade this meets the requirement, as long as ladder is removable when pool is not in use).
- Skilled swimmer shall be present at all times when pool is in use.
- Must provide 1 strong pole with Shepard's hook not less than 12' in length.
- Must provide a throwing ring no less than 15" in diameter with a minimum of 60' of rope attached

### **ELECTRICAL REQUIREMENTS:**

- Overhead conductors shall be a minimum of 10' horizontal from waters edge.
- Underground conductors shall be a minimum of 5' horizontal from waters edge.
- All receptacles on property shall be a minimum of 10' from waters edge, (except for pump outlet).
- Receptacle serving the pool pump shall be located between 5' & 10' from waters edge and be a single outlet that is a locking type. (Pump cord length shall not exceed 3' and have a locking plug).
- Receptacles installed for pool use shall be installed 18" above grade and permanently secured.
- Receptacles located within 20' of waters edge shall be GFCI protected and installed in waterproof enclosures.
- All electrical equipment shall be properly grounded.
- All electrical wiring shall be run underground in rigid galvanized conduit buried a minimum of 6" deep, or in rigid non metallic conduit 18" deep.

For any questions concerning the installation of a swimming pool please contact the building department.

Rick Sheridan (847) 588-8068 Electrical Inspector

John Montejo (847) 588-8067 Building Inspector

### **REQUIRED INSPECTIONS:**

**It is recommended to set up an on site meeting with inspectors before submitting for permit.**

**Final inspection before covering any electric or using the pool.**
