**CONDITIONS OF PERMIT:**

The Approval of said Fireworks Display is conditional upon the submittal of the following:

- Permit application must be received by the fire department at least 15 days in advance of the date of the display
- A list of fireworks to be used (including sizes)
- A list of all assistants that will be working at the display site including verification of ages

The Pyrotechnic Distributor shall also be in compliance with the following:

- When used for transport of fireworks, all vehicles shall bear placards indicating the presence of 1.3G fireworks.
- Display site must comply with provisions of the 2010 edition of the NFPA 1123, Guide for Outdoor Fireworks Displays and all applicable State Statute and OSFM Rules & Regulations.
- Upon completion of the display an Illinois Display Report shall be filed with the Office of the State Fire Marshal (OSFM).
- The Distributor/Vendor is solely responsible to perform a post-display site inspection and ensure the collection of all unexploded material.

It is understood that the Niles Fire Department reserves the right to suspend the fireworks display at any time in the interest of public safety.
